EXPERIENCE

Webgro | Web Designer (UI/UX)

Apr 2021 - Present

- Created wireframes, mockups, and interactive prototypes to visualize design solutions and gather feedback from clients and stakeholders.
- Designed intuitive and visually appealing user interfaces for web and mobile applications, ensuring brand consistency and usability.
- Planned and conducted usability tests to evaluate design effectiveness and iterated based on user feedback and test results.
- Collaborated with product managers, developers, and other stakeholders to ensure design alignment with business goals and technical constraints.

Key Achievements

- Led the design of EazySend, a mobile app for international money transfers, resulting in a 30% increase in user engagement.
- Enhanced user experience through usability testing and iterative design, achieving a 25% increase in client satisfaction.

Terra | Product Designer

Aug 2018 - Mar 2021

- Elevated the user experience for a substantial user base on the e-learning platform, fostering engagement through intuitive design and streamlined navigation.
- Developed and executed comprehensive communication strategies to keep users informed about new features, updates, and ongoing improvements to the platform.
- Incorporated inclusive design practices, collaborating with content creators to develop learning materials that catered to a diverse and inclusive audience.
- Conducted usability tests and analyzed feedback, identifying areas for improvement in the design process.

Key Achievements

- Enhanced user engagement by 40% on the Terra e-learning platform through improved user experience, communication strategies, and inclusive design practices.
